## How to Make a Bank/ Wire Transfer into Your Trading Account

Version 1.1

Last updated on Tuesday, 20th November 2018

Making a bank or wire transfer into your EZInvest trading account is super-easy, safe, and the most reliable way to ensure that your funds are safely added to your trading account. Plus, there's a chance that you'll receive cashback on your deposit. See the last page for more info on that.

### Sending Euros

If your bank account is in euros and your EZInvest is in euros too, simply make the bank or wire transfer using the following details:

Beneficiary	WGM SERVICES LIMITED
Bank Name	Wirecard Bank AG
Account Number	61514
Beneficiary IBAN	DE12512308000000061514
Beneficiary SWIFT/ BIC	WIREDEMMXXX

Or you can use these bank details instead. The choice is yours.

Beneficiary	WGM SERVICES LIMITED
Bank Name	Deutsche Handelsbank
Account Number	4100185011
Beneficiary IBAN	DE76700111104100185011
Beneficiary SWIFT/ BIC	DEKTDE7GXXX

### Sending British Sterling (GBP)

If you're in the UK or have a British Sterling (GBP) bank account, and your EZInvest is in GBP too, simply make the bank or wire transfer using the following details:

Beneficiary	WGM SERVICES LIMITED
Bank Name	Wirecard Bank AG
Account Number	58813
Beneficiary IBAN	DE92512308000000058813
Beneficiary SWIFT/ BIC	WIREDEMMXXX

## How to Make a Bank/ Wire Transfer into Your Trading Account

### Adding a description

Whenever you make a bank or wire transfer, your internet banking portal or personal banker will ask you if you want to add a **description**. It's always best to add in your EZInvest trading account number into the description. This will really help our Back Office Team to allocate your incoming transfer to your trading account.

To find your trading account number, simply login to the EZInvest Client Area by clicking on this link - <https://www.ezinvest.com/login>. As soon as you've logged in, you'll be shown a list of your trading accounts, along with their account numbers.

### Speeding up the process

To speed up the process, simply send us a copy of the **proof of payment** via email. Send it to [support@ezinvest.com](mailto:support@ezinvest.com) and our awesome Back Office Team will keep an eye out for your incoming deposit.

### How long does it take for the funds to hit my account?

As soon as you've made the bank/ wire transfer, you should see your funds added to your account within 2-5 working days. To speed up the process, make sure you add your EZInvest Trading Account Number to the Description bit of the transaction, and send us the proof of payment.

### Why is making a bank/ wire transfer better than depositing funds via my credit card?

We encourage all our traders to make their deposits via bank transfer if it's possible for them to do so, and we reward customers that make their first ever deposit via bank transfer too. Check out our amazing **Deposit Cashback Promotion** by speaking with your Account Genius. Depending on the status of your account, your Account Genius might be able to add you to the promo even if you're not making a first-time deposit!
